

## Paragon Housing Association Ltd

### What alarms do I have?

- ✓ Smoke alarms are present in your hallways, landings (where applicable) and living areas.
- ✓ There is a Heat alarm in your Kitchen.
- ✓ There is a Carbon Monoxide (CO) alarm in the room containing your gas boiler. There may be a second CO alarm for flues passing through another room.

### Ei450 Alarm Controller

- ✓ Test your alarms weekly using by pressing the central button.

- ✓ The Fire or CO light will illuminate to show you which type of alarm has activated.

- ✓ If the alarms in your home are sounding, press to locate - this will silence all alarms except the one which activated the system.

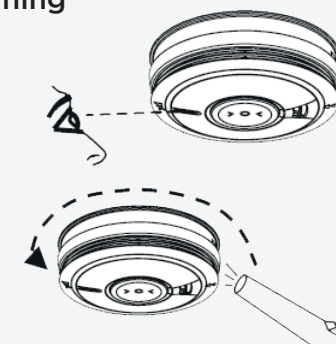

- ✓ Silence a false alarm by again pressing the central button.

### What to do if my alarm sounds?

- ✓ In the event of an activation get your family to safety before investigating.
- ✓ In the event of a fire ensure that all windows and doors are closed if possible and evacuate the property immediately - Call the Fire Brigade.
- ✓ In the event of Carbon Monoxide, ensure that all windows & doors are open and evacuate the property immediately - Call your landlord or call 0800 111 999 if in immediate danger.

### Maintenance & Cleaning

- ✓ Always ensure that the Green Mains power LED is constantly lit. This confirms that the alarm is receiving mains power.
- ✓ Vacuum around the vents of each alarm on a regular basis (recommended monthly).
